Equifax Breach Affects 143 Million Americans

By now, you have heard about the major data breach at Equifax, one of the three credit bureau companies. Over 143 million consumers could have their account information, and worse yet, their identities compromised. TOPCU is monitoring this issue closely and will update members as new information becomes available. In the meantime, it's imperative that you take the necessary steps to protect your personal and financial information.

VISA Purchase Alerts

In light of the Equifax breach, TOPCU urges all debit and credit cardholders to register for Visa Purchase Alerts to receive near real-time updates on your card activity. After your Visa card has

been used, you'll receive an alert through text message or email. If there is fraudulent activity, you can find out within minutes and act quickly to resolve the situation.
